AgChimp Bone Meal Plant Food is an all natural way to fertilize all of your garden and ornamental plants. Bone meal is highly beneficial to subsurface emerging plants (bulbs) and tuberous plants. Bulbs and tuberous plants need moderate amounts of phosphorus and calcium to produce desired results. AgChimp Bone Meal Specialty Plant Food is formulated to provide your plants with the nutrition they need.

Directions For Use: Using the scoop provided, place 1-2 scoops (1.5-3.0 oz) of this product evenly around the base of each plant extending 6-12 inches out from the central origin of the plant or to the limits of the potting container. Reapply every 15-30 days during the growing season. For best results, water each plant after application. Reseal product package and store in a cool, dry area.

Application is as easy as 1,2,3!

Step 1  **Using the scoop provided, place 1-2 scoops of this product evenly around the base of each plant extending 6-12 inches out from the main trunk.**

Step 2  **Water in the product utilizing a watering can or other watering device.**

Step 3  **Reseal package and store in a cool dry place until needed again.**
