

**DIRECTIONS FOR USE:**  
**USE IN LANDSCAPED AREAS:** For use in landscaped areas around plantings and lawn areas. Generously sprinkle Deer Clear Repellent onto the ground within the landscape. Use 2 to 4 cups of over a 100 square foot (10 foot x 10 foot) area. Re-treat as needed. Deer Clear Repellent is designed to work for up to 14 days depending on climatic conditions.

Use only as directed. Not for indoor use. This product is not designed to contact food products or food crops. Daily application may be required depending on temperature, time of year and insect activity. Only for use in areas where children cannot come into contact with or ingest the granules. Do not apply to concrete, pavers or stone as staining may occur.

**CAUTION:**  
May eye irritation. May cause an allergic skin reaction.

**PREVENTION:** May cause eye irritation. Avoid contact with eyes. Wash affected areas thoroughly after handling.

**RESPONSE:**  
IF SWALLOWED: Call a Poison Center or doctor/physician if you feel unwell.  
IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Seek medical advice or attention.  
IF IN EYES: Rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes. If eye irritation persists: Get medical advice or attention.  
**STORAGE:** Keep container tightly closed. Store this product in a well ventilated area. Do not store in direct sunlight.  
**DISPOSAL:** Dispose of in accordance with all federal, state and local applicable regulations.

- **Easy To Apply Granules**
- **Dyed blue, a spooky color to deer**
- **Scent profile is derived from essential oils**
- **Last for up to 14 days**
- **Safe for People and Pets<sup>1</sup>**

The Whitetail Deer and other members of the Cervidae family have a heightened sensitivity to the color blue! Deer are essentially red-green colorblind like some humans. Their color vision is limited to the short (blue) and middle (green) wavelength colors. The science would lead us to believe that deer would be more startled by a blue objects than red, green or orange hues.
