

DIRECTIONS FOR USE

USE IN LANDSCAPED AREAS: For use in landscaped areas, around pools, picnic areas, patios, yards and social gathering areas. Generously sprinkle ForceField Insect Repellent onto the ground 2-4 hours prior to activity, to allow vaporization. Use 2 to 4 cups of over a 100 square foot (10 foot x 10 foot) area of the lawn or mulched areas. Re-treat as needed. ForceField Insect Repellent is designed to work for up to 14 days depending on climatic conditions.

HORSE STABLES, DAIRY BARNs, CHICKEN COOPS AND OTHER LIVESTOCK AREAS: Apply 2 to 4 cups of ForceField Insect Repellent over a 100 square foot (10 foot x 10 foot) onto the ground, along perimeter walls and barriers. Vaporization begins immediately, however allow 2-4 hours for full vaporization. Re-treat as needed. ForceField Insect Repellent is designed to work for up to 14 days depending on climatic conditions. DO NOT allow granules to collect inside water or feed containers.

REFUSE & TRASH CONTAINERS: For use in trash receptacles. In the empty container, spread 2 to 4 cups of ForceField Insect Repellent Granules on the bottom of the container. Reapply with every 8 to 10 inches of trash added to the container. Repeat after each service. Keep trash lid closed for best effect. This product can be used on ground around trash cans and dumpsters at an application rate of 2 cups per 100 square foot (10 foot x 10 foot) area of the ground.

Use only as directed. Not for internal use. This product is not designed to contact food products or food crops. Daily application may be required depending on temperature, time of year and insect activity. Only for use in areas where children cannot come into contact with or ingest the granules. Do not apply to concrete, pavers or stone as staining may occur.
