

**DIRECTIONS FOR USE:**

**For Spot Spray Applications:**

Add 1/2 oz of AgChimp MSO per 1 gallon of water.

**For Broadcast Applications:**

Add 1 to 2 pints of AgChimp MSO per 100 gallons of water, unless otherwise directed on the pesticide label. More may be required on species with heavier cuticles, or under dry or dusty conditions or for more mature weeds. Variations in conditions of use can cause some variation in the amount of this product required. The minimum required to give a smooth, uniform coverage usually gives the most effective results. Not for aquatic use. Not for use in hose-end applicators.

**MIXING INSTRUCTIONS**

For wettable powders and water-soluble materials, add this product in water before adding pesticide to spray tank. For emulsifiable products, add this product after a good emulsion is formed. Always use an air-gap filler when mixing. Do not allow the hosepipe to come in contact with the mix solution when filling. Always conduct a jar-test to verify compatibility.
