

DIRECTIONS FOR USE:

For small tanks such as backpack sprayers: Fill the empty sprayer 25% with water. Add 2 oz ounce of AgChimp Tank-Klean for each gallon of sprayer capacity. Shake sprayer vigorously to cover all surfaces several times. Dispose of water through spray applicator to clean hoses and nozzles. Repeat, if needed. Rinse several times with clean fresh water until all signs of cleaning agent, such as foaming, are gone.

For large tanks: Use 1-2 quarts of AgChimp Tank-Klean per 100 gallons of water. Fill tank with water. Turn on circulation. Circulate for 10 to 15 minutes. Disperse solution through hoses, booms and nozzles to ensure adequate cleaning. Drain the system. Follow with several thorough rinses with clean fresh water until all signs of cleaning agent, such as foaming, are gone. **NOTE:** Complete rinsing is essential before starting the next tank mix.

Tank-Klean

Alkaline Tank Cleaner

AgChimp Tank-Klean reduces or eliminates residues from pesticides in mix tanks while cleaning equipment and extending the lifetime of seals and parts of the equipment. AgChimp Tank-Klean is compatible with, and is effective against most active ingredients. AgChimp Tank-Klean has an extremely alkaline pH, which helps dissolve active ingredients more efficiently and works well with sulfonylurea herbicides.

PRINCIPAL FUNCTIONING AGENTS

Proprietary blend of alkalinity builders, emulsifiers, surfactants and formulation aids100%
All ingredients are approved for use under 40 CFR 180 or are permitted in 21 CFR 184.
