

pHix™

COVERS UP TO 5,000 SQ. FT.

pHix™ is a uniquely formulated pH management product for use in acidic soils to increase the pH. pHix™ displaces the hydrogen molecules in the soil resulting in the increase of the soil pH. Properly managed soil pH ensures maximum uptake of nutrients by the turfgrass lawn.

Directions For Use: Shake container prior to use. Apply the contents of this package to coverage area of up to 5,000 sq. ft. For best results, make repeat applications throughout the growing season.

CAUTION

KEEP OUT OF REACH OF CHILDREN

"See back panel for additional precautionary statements and directions for use"

GUARANTEED ANALYSIS

Calcium Carbonate by Wt.....	35.00%
Calcium (Ca)	15.00%
